Possible Interview Questions

Give me an idea of your health background – allow them to tell their story

What Services do you currently have in place here at home? (CCAC/PSW/PT/OT...)

How are they working for you?

Do you have any wishes regarding your health – what are your goals?

Is there anything that concerns you with your situation. -

How do you manage your medications?

Who do you call if you need anything? Who is your caregiver?

Cultural / Religious – do you belong to any churches...

Transportation – explore if there are any transportation issues

What concerns do you have about staying at home?

What matters most to you?

If you need something or have questions regarding your health – who is your “go to” person? Who do you call? Ie. CCAC/Physician

How many visits to the Emergency Department have you had lately?

What were they for?

Were you admitted?

If you could have anything added to your services or have any changes to your health care what would you like to see?
